To Whomsoever It May Concern

Mini Tool Room & Training Centre (MTRTC) set up by Govt. of Odisha (Managed by Gram Tarang Employability and training services); offers excellent opportunities for creating high end Technical Skills which results from rigorous exposures of Trainees to various theoretical aspects and adequate hands on practice to make them employment ready. MTRTC has been empaneled as registered vendor of HAL, Sunabeda to manufacture Sukhoi and MIG engine components. With ISO certified workshops and training facility MTRTC is one of the finest organization for skill training for engineers. In association with NSDC & its Skill India mission, MTRTC and Gram Tarang Employability and Training services (GTET) is hosting “Dream Skilled India” drive in different institutions across country in partnership with pioneer of the field Sky Rider Automotive. Along with conducting workshops at different institutions, we are also conducting free skill oriented training program as “Skill Fair- Free skill course for everyone”, where students can attend free certificate training at our centers. These initiatives are taken to promote skill India program and provoke students to adopt skills for a better future and learn as much they can.

About Skill India Mission-

“I CALL UPON THE NATION TO TAKE PLEDGE TO MAKE INDIA THE SKILL CAPITAL OF THE WORLD”

– P.M Sri Narendra Modi

Skill India Portal was conceptualized to provide a collaboration platform to help empower the all stakeholders to freely connect with each other. The overall focus of this initiative is to help provide an engaging ecosystem to cater to skilling needs of citizens by publishing and sharing relevant information. The outcome of this collaboration should ideally lead to inclusive growth especially for those at the bottom of the pyramid (approximately 800 million citizens).

About the Skill Fair-

GTET (partner of NSDC) and MTRTC are hosting “Skill Fair- Free skill course for everyone” on occasion of Dream Skill India Campaigning in association with the pioneer of the field, “Sky Rider Automotive”. The aim of the mission is to spread the awareness about skill India mission and value of skill oriented courses among students. Due to lack of proper guidance our students fail in acquiring a skill and fail to make themselves employable. To meet the requirement, these free trainings will help in bringing the awareness and students will

acquire some skill and knowledge. Students will learn and work in their hands, which will help them to understand better. Automobile lab experience at our labs (India's one of the largest automotive lab) and training centers of **Ashok Leyland, Eicher, BEML, Mahindra, Yamaha** will surely give them a memorable experience of learning during their visit. End of the training, student will get a **Skill India (NSDC) certificate** of participation end of the training.

As the training is an eye opening session about skill programs and future scopes of skill India, so students from any branch can participate and can get a Skill India (NSDC) certificate.
